

Spring 2026 Product Workbook

Energy For All

Everyone deserves access to clean, reliable, and affordable energy.

Energy sits at the center of our lives, keeping us safe, productive, and connected. Health, education, opportunity, adventure – all of it is shaped by the invisible power of energy.

For those we serve in the outdoor markets, we are here to introduce you to the best damn rechargeables in the world. Beautiful, usable, and high-performing, our products enable you to leave fossil fuels and disposable batteries behind.

For those we serve in emerging markets, we have the humbling opportunity to be a household's first step onto the energy ladder: an extra hour of study after sunset, a charged phone ready to make mobile payments, a family dinner cooked without the worry of inhaling smoke. These seemingly small moments are the very essence of what drives us at BioLite.

Every purchase directly impacts our mission and our ability to deliver safe energy around the world. Choosing BioLite is choosing a brighter future for both people and planet. Thank you for being a part of this journey.

Proudly Carbon Neutral Since 2012

Proudly Calling Others To Act Today.

BioLite is the proud co-creator of Climate Neutral, an independent non-profit with a mission to address global climate change by recruiting and enabling companies to measure, reduce, and offset 100% of their carbon emissions immediately. Climate Neutral certifies brands using a rigorous but simple process, and supports certified companies through the use of the “Certified Climate Neutral” logo.

To learn more about BioLite's own carbon footprinting process, download our 2024 Impact Report:

BioLite Crossover Line

Used by over **8 million people** in off-grid homes around the world, BioLite's SolarHome Series is a groundbreaking system that is changing the landscape of energy access.

Designed for emerging markets, BioLite is proud to offer this crossover line to our outdoor recreation market, a benefit of our unique model of parallel innovation.

SolarHome 625

SHA0501

Multi-Room Solar Light & Power

SolarHome 625 is a self-contained system of solar lighting and charging that can turn any off-grid structure into an electrified home. The system combines easy lightweight overhead lighting, USB charging to small devices, and radio/mp3 capabilities, creating a hub designed for everyday use. Three hanging lights are included for multi-area illumination, one of which includes motion-sensor capabilities perfect for pathways or a little added security. Ideal for cabins, van setups, hunting structures, and emergency kits, the SolarHome 625 is an ideal entry into solar living with easy installation and flexible setup.

CampStove KettlePot & Coffee Set

BNA0101

Cook meals, boil water, and make coffee with this quick cooking system. Designed for use with the BioLite CampStove, the KettlePot cooks like a pot and pours like a kettle while the included CoffeePress delivers french-press style brewing. When not in use, KettlePot doubles as a hard-carry case for your CampStove, saving space in your pack and offering extra protection.
