

A photograph of two young women with long blonde hair, smiling and holding up colorful glasses (one orange, one teal) in front of a dark-colored truck. The woman on the left is wearing a brown beanie and a denim jacket, while the woman on the right is wearing a black beanie and a dark jacket. The background shows a cloudy sky and some greenery.

FULL WINDSOR

Looks Good, Works Better, Lasts a Lifetime

Full Windsor is a small design-led brand that makes high-end sustainable camp kitchen gear that lasts a lifetime, for folk that love to play outside. Every useful thing we make is designed for durability and sustainability. To be used and used some more. And to make as small a dent in the planet as is humanly possible.

Our mission is simple - to design and make the best outdoor utensils and tools. We want you to experience delight whenever you are using our products, so they become a part of your everyday life.

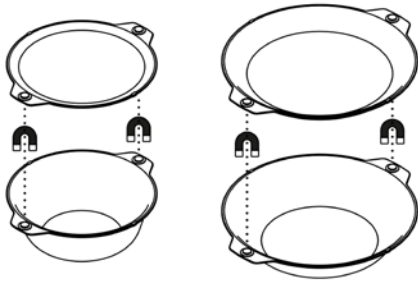

Our Founder is a Kiwi industrial designer named Mark Windsor. Mark began Full Windsor back in 2011, with the founding principle that design, innovation and sustainability should be at the heart of everything we do. From an old warehouse in East London, UK he quit his day job at a well-known design firm and released Full Windsor's first product on Kickstarter. We then hopped across the pond to sunny California in 2018, and are more focused than ever on designing sustainable and innovative outdoor gear, that helps people to enjoy getting outside and has a minimal impact on the planet.
