Matador®

FOR THE TRAVELERS

FALL/WINTER 2027

FOR THE TRAVELERS

DESIGNED IN COLORADO. TESTED EVERYWHERE.

BORN FROM DESIGN. OBSESSED WITH TRAVEL.

We're a design studio gone rogue, founded on the core principle that the product comes first.

We design every product from the ground up, in-house. No shortcuts, no compromises. Just purpose-built travel gear that we're proud to put our name on and stand behind.

We're travelers too. First-hand experience and testing informs our travel gear, setting it apart from the rest. We solve problems we've experienced, so you don't have to.

Matador®

SUSTAINABILITY

Quality materials, robust zippers, and mil-spec-inspired construction set our gear apart. We put our gear through real-world testing before production, and our in-house repair program helps keep it out there.

We choose materials built to perform, from PFAS-free fabric coatings to recycled materials used in select products. We prioritize fabrics produced through processes that meet bluesign criteria. See individual product specifications for material details.

All Matador products are free of intentionally added PFAS.

Our in-house repair program keeps our equipment out there. All products, in or out of warranty, are eligible for our free repair program.

We match 100% of our Boulder HQ's electricity use through Windsource®, a Green-e® Energy-certified renewable electricity program.

Shipping gear from manufacturers to our U.S. distribution network generates carbon emissions. We help fund carbon projects through the purchase of credits, selecting third-party-certified projects and reviewing whether they deliver benefits that wouldn't have happened otherwise.

Learn more about our materials and practices atMatadorEquipment.com/pages/sustainability.
**PFAS and recycling icons summarize material specifications for wholesale reference. They do not indicate independent product certification.*

PACKABLE LAUNDRY BAG

The Matador Packable Laundry Bag keeps yesterday's adventure off tomorrow's big plans. Lightweight and tough, it disappears into its own pocket until you need it. Hang it, zip it, or lay it flat — wherever you end up, it keeps the laundry in check.

FEATURES

- Fits up to 30 liters of dirty clothes
- Lightweight, packs into its own stuff-it pocket
- Zipper access on top to use like a hamper
- Zipper access on the front to use while laid flat inside luggage
- Coated, waterproof fabric keeps dirty clothes separated
- Dual clips allow for versatile hanging options
- Bottom handle, side handle, and top handle make it easy to hang, carry, or dump out
- Stuff-It pocket doubles as storage for detergent pods or laundromat change

SPECS

DESIGNED IN COLORADO—TESTED EVERYWHERE

WHY WORK WITH MATADOR®

Travel gear is booming—
Forecasted to grow 9% annually, this category keeps climbing. Matador® helps you capture that upside with low investment and high sell-through.

Matador® products are high quality, unique, and never found at discount retailers.

Matador® is easy to work with: Real people, local reps, and a focus on retailer success.

Matador® protects you from Amazon. No 3rd party resellers. Most products are not available on Amazon. Available products are listed significantly above MSRP, meaning you will be offering better pricing than Amazon.
